And he's a fantastic player! But things aren't going well. Kyle isn't playing well and he's missing a lot of balls. Is he losing?

A game with a difference

A It's a nice autumn day in the City of Buenos Aires and Los Murciélagos football team is playing in a match. One player has got the ball, and is kicking it quickly towards the goal. But something unusual is happening. He isn't looking at the other players. Instead, he's listening to their voices. Why is he doing this?

B Here are some clues. The players aren't playing on the usual big green pitch. This one is small, with a hard surface. The ball is different, too. It's got small, hard balls inside it. The ball makes a noise when it moves, and the players can hear it. Can you guess why this is important for them? Amazingly, these players can't see.

C Blind five-a-side football is an important sport in Argentina. Los Murciélagos, the country's professional team, are the winners of World Championship and Paralympic medals. These players can't use their eyes to play in this match, but they're using their ears and voices. And they are winning!
